

AEROSPACE

AIRCRAFT BRACKET

- **Design and manufacturer:** Meltio
- **AM Technology:** Wire based Laser Metal Deposition (W-LMD)
- **Manufactured on:** Meltio Engine CNC Integration
- **Manufacturing Time:** 13 hours 33 minutes
- **Material:** Titanium 64

Outstanding advantage:

Reducing lead times for parts with an excellent strength-to-weight ratio, resulting in cost, time, and fuel savings for aircraft.
