LARGE GLASS MOLD

- **Design and manufacturer:** Meltio
- **AM Technology:** Wire based Laser Metal Deposition (W-LMD)
- **Manufactured on:** Meltio M600
- **Material:** Stainless Steel 316L
- **Production time:** 96 hours 07 minutes

Outstanding advantage:

With a monolithic structure and fully functional cooling ducts straight off the printing build plate, it only requires finishing of the glass shaping surfaces, reducing lead times and part costs.
